Professional Summary

Full Stack Engineer with 1.5+ years of hands-on experience designing, building, and deploying production-grade web applications, CRM platforms, e-commerce systems, and role-based enterprise solutions. Specialized in Next.js, React.js, Node.js, and cloud deployment (VPS, Nginx, AWS S3, CDN) with a proven track record of delivering 12+ client-facing applications — from architecture design to production release — with zero critical post-launch defects. Consistently optimizes for performance, scalability, and technical ownership.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, Redux, React Query, SSR/CSR, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, OAuth 2.0, JWT, RBAC, Authentication & Authorization, Nodemailer, Razorpay, Stripe

Databases: MySQL, PostgreSQL, MongoDB, Prisma ORM

DevOps & Tools: Git, VPS, Nginx, SSL, AWS S3, CDN, Vercel, Domain Mapping

Work Experience

Full Stack Developer | *PCD Consultancy Services*

Jul 2025 – Nov 2025

Mumbai, India

- Architected and shipped 5 production applications — 2 dynamic websites, 1 admin panel, 1 CMS, and 1 mobile app backend — using Next.js, Node.js, and MySQL, all delivered on time with zero critical defects.
- Engineered custom CMS platforms empowering non-technical stakeholders to self-manage content, reducing estimated content update turnaround time by 60%.
- Owned end-to-end VPS deployment pipeline (Nginx, SSL, domain mapping), maintaining 99.9% uptime with hardened security protocols across all client environments.
- Improved server-side rendering performance by integrating SSR and optimized database queries, significantly reducing average page load times for high-traffic client sites.

Web Developer Intern | *Sublime Technocorp*

Jun 2024 – May 2025

Navi Mumbai, India

- Delivered 7+ production-grade web applications for multiple clients using React.js, Next.js, Node.js, and MySQL, achieving 100% post-launch API functionality coverage.
- Developed full CRM modules including role-based dashboards, user management workflows, audit logs, and analytics features supporting multiple business verticals.
- Reduced redundant API calls and improved perceived performance by implementing React Query caching strategies alongside code splitting and lazy loading.
- Designed and validated RESTful backend APIs with robust database schema design in MySQL and MongoDB, ensuring data integrity across all deployed services.

Key Projects

Kidzbook CRM Admin Panel | *Next.js, Node.js, MySQL, Prisma, Redux, React Query,*

- Architected a unified, modular CRM supporting 5+ business verticals (social media, e-commerce, education, events, competitions) with dynamic module switching and granular per-module RBAC.
- Implemented multi-role assignment and custom permission sets, enabling fine-grained access control and secure operations across hundreds of admin users.
- Built high-performance data layer using Redux for global state and React Query for server-side caching, eliminating redundant API calls and improving dashboard responsiveness.

MK Ghare E-Commerce Platform | *Next.js, Node.js, PostgreSQL, Razorpay, OAuth 2.0* | mkghare.com

- Built a full-featured jewellery e-commerce platform with product catalog, shopping cart, and Razorpay payment gateway; implemented OAuth 2.0 (Google & Facebook) to streamline user onboarding.
- Optimized PostgreSQL queries and applied responsive design patterns for seamless cross-device experience in a live production environment serving real customers.

Sublime TechnoCorp Corporate Website | *Next.js, React.js, Tailwind CSS* | sublimetechnocorp.com

- Developed a modern, SEO-optimized corporate site with dynamic case studies, careers page with application flow, and meeting-scheduling integration; improved organic search rankings through technical SEO.

Education

B.Sc. in Computer Science <i>SIES College, University of Mumbai</i> <i>Mumbai, India</i>	2022 – 2025
Intermediate – PCM with Computer Application <i>Gandhi Nagar Public School</i> <i>Moradabad, Uttar Pradesh</i>	2021 – 2022

Achievements & Leadership

- **Zero Critical Defects** – 12+ client-facing production applications launched from zero with no post-launch critical failures across all client environments.
- **Technical Mentor** – Designed full-stack curriculum and coached junior developers on system design, REST APIs, and production deployment best practices.
- Drove team-wide knowledge sharing through structured code reviews, technical documentation, and collaborative architecture discussions.
